4. There is a Soviet barracks located S of the BIEDERITZ - MAGDEBURG railway line, some 2½ - 3 km. from MAGDEBURG - NEUSTADT railway station in the BIEDERITZ direction . The N side of the barracks is bounded by the railway line. At 0820 hours on 19th August, 1959, six Soviet soldiers were working on a tank standing near the barracks fence. The tank was unusually small, being about 2 m. long and 1.3 m. tall. It had 6 - 7 very small bogoy wheels, measuring about 0.2 m in diameter. On top of the tank was mounted a rail some .3040 m broad which protruded ever each end of the vehicle. Attached at Appendix 'A' is a sketch of the tank as seen from the side and from an angle.	5	OX1-HUM
